TO SAVE EYES

Is the Object of This Free Prescription—Try it if Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and oftentimes get glasses that they do not need, or which, after being used two or three months, do their eyes more injury than good. Here is a simple prescription that every one should use:

5 grains Optona (1 tablet) 2 ounces water

Use three or four times a day to bathe the eyes. This prescription and the simple Optona system keeps the eyes clean, sharpens the vision and quickly overcomes the inflammation and irritation; weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eyes and contains no ingredients which would injure the most sensitive eyes of an infant or the aged. See & Osgood or any druggist can fill this prescription promptly. Try it and know for once what real eye comfort is.

KILLED HIS COUSIN WITH REVOLVER SHOT.

Ten-Year-Old Max Rogoff Fired Pistol He Didn't Know Was Loaded—On Farm in Montville.

Seven-year-old Julius Rogoff was shot and instantly killed Friday afternoon by his cousin, Max Rogoff, ten years old. Max Rogoff confessed on Saturday to Coroner Brown and Medical Examiner Fox. The coroner determined that the case was an accident and did not hold young Rogoff, who shot the revolver at his cousin, thinking it was not loaded.

The first version that Medical Examiner Fox got of the death of the little boy was to the effect that he had been playing unobserved with a revolver that lay in a bureau drawer and that it had exploded, killing him. This version was related to the medical examiner and coroner, but there were suspicions that this was not the truth and after an exhaustive investigation Saturday the facts were made known.

Dr. Fox was notified late Friday afternoon that a boy had accidentally shot himself at the farm of Harry Rogoff at Chapel Hill. He informed Coroner Brown and the two officials went there. The body of little Julius, son of Mr. and Mrs. Reuben Rogoff of the Bronx, New York, was shown to the coroner and medical examiner and the story of his suicide while innocently playing with a loaded cartridge was told.

Dr. Fox examined the wound, which showed that the bullet had ploughed out the right eye and passed through the floor of the brain chamber. Its course indicated that the bullet had been fired at a greater distance than the little boy's arm's length and small clipped pieces of wire led the coroner to believe the bullet had passed through a window screen.

The shooting occurred at 2:30 in the afternoon and before the investigators had arrived both the revolver and a window screen had been hidden. The Rogoffs could not be made to produce either. A search was started and the revolver was found on Saturday morning when the investigation was resumed the screen was found. This and a bullet hole through it and fragments of wirehead dropped on the veranda as the bullet passed through.

One of the women admitted after close questioning that an attempt was made to hide the revolver and a window screen had been hidden. The Rogoffs could not be made to produce either.
